FYI - this went to the civil disturbance workgroup.

All – as you know there has been some interesting in a gold exploration site near Rochford in the Black Hills. DENR has established a mechanism for citizens to provide our office with comments and concerns on the issue. Attached is a link to DENR's web site and the form that allows public comment.

We have compiled a spreadsheet of the citizens that have provided comments to DENR and the Governor's Office. Attached is a spreadsheet of those citizens with notes on their specific comments.
